

## **Morgan opens new dealership in London, its second company-owned retail venue**

The Morgan Motor Company has opened its newest dealership in London situated in the capital's exclusive district of Kensington. Morgan Works London is equipped to sell both new and used Morgan cars, as well as offering aftersales backed up with factory resources.

The style of the new dealership mirrors the recently opened Morgan Experience Centre at the company's Malvern home and can display up to five vehicles. It welcomes new and existing Morgan customers, whilst also serving as a centre for Morgan enthusiasts.

The second company-owned retail venue, it follows Morgan Works Malvern, based at the company's factory in Worcestershire and will ultimately be joined by a third showroom in Bicester, Oxfordshire.

Morgan Works London is at 5 Astwood Mews, London SW7 4DE and welcomes visitors with no appointment necessary.
